THE STRUCTURAL ENGINEER

THE JOURNAL OF THE INSTITUTION OF STRUCTURAL ENGINEERS

INDEX VOL. 42. 1964

PAGE

ADAMS, E. H.: See PAGE, F. A. and E. H. Adams

Accidents: Presidential Address, 1964 ... 403

Adhesives: Glued joints for structural concrete —Discussion 135
—Correspondence 227

Administration: Building management in the '70s 79
—Discussion 305

ALLEN, D. N. de G. and R. T. Severn: Composite action of beams and slabs under transverse loading: Part IV—Rectangular slab with four edge beams, supported at corners on rigid stanchions 429

All Souls College, Oxford: Restoration ... 327

Aluminium in structural engineering: Proceedings of Symposium 286

Ancient buildings: Restoration 327

Annual Dinner, 1964 207

Annual General Meeting, 1964 ... ...145, 248

Arches:
National Stadium, Jamaica: Design and construction 317
Volume integration method of structural analysis 95
—Corrigenda208, 250
—Correspondence 391

Award of Merit Fund Grant 179

BALAKRISHNAN, S.: See CHAPMAN, J. C. and S. Balakrishnan

BANERJEE, S. P.: Numerical analysis of conoidal shells —Correspondence 125

Bars, lapped: Stresses in column reinforcement —Discussion 167

Beams:
Beams on equidistant elastic supports —Précis 432
Composite action of beams and slabs under transverse loading 429
Composite construction 411
Composite construction in steel and concrete: beams 115
Experiments on composite beams 369
Extensibility and microcracking: Composite prestressed concrete beams 181
Factory in reinforced concrete 217
Footbridges on Kwinana Freeway 197
Influence lines for bridge decks monolithic with piers 161
—Correspondence 339
Intermediate hinges in moment distribution method 173
Restoration of ancient buildings 327
Stresses and deflexions in castellated beams 19
Tests on beam to column connexion for precast concrete —Correspondence 194
Ultimate strength of interior column in RC slab: Membrane stresses —Correspondence 29
Ultimate strength of plane curved girders ... 129
—Correspondence 235
Use of prestressed steel in elevated roadways 4

Bending moments, etc.:
Behaviour of composite beams: steel and concrete 115
Castellated beams: Stresses and deflexions 19
Column reinforcement: stresses —Discussion 167
Plastic collapse of structural members under combined bending and torsion 423
Suspension bridge problems by digital computers, Part I —Correspondence 4
Ultimate strength of interior panel in RC slab: Membrane stresses —Correspondence 29
Ultimate strength of plane curved girders 129
—Correspondence 234
Welded crane girders: Design and service life of upper part —Discussion 87

Berthing structures for large oil tankers ... 39
—Discussion 341

BEWICK, J. R.: New Mohaka River Bridge ... 289

Bio-engineering studies of structural components of human body 101
—Discussion 393

Bodleian Library: restoration 327

Bolts, high strength friction grip in composite construction 411

BOND, D.: See HOLMES, M. and D. Bond

BONNETT, C. F.: Railway bridges of composite construction 361

Book Reviews:
ACI Standard Building Code Requirements for Reinforced Concrete 242
ACI Standards, 1963 172
Ancient Engineers: L. Sprague de Camp ... 410
Application of Digital Computers to Structural Engineering Problems: D. M. Brotton 109
Arches, Continuous Frames, Columns, Conduits: Papers of Hardy Cross ... 36
Architect and Contractor's Year Book, 1963 159
Architectural Supervision of Modern Buildings: M. D. Dubin 172
Architecture of Monuments—F. D. Roosevelt Memorial Competition: T. H. Creighton 410
Basic Design and Construction in Prestressed Concrete: J. D. Harris and I. C. Smith ... 241
Basic Reinforced Concrete Design, Vol. II—More Advanced Design: C. E. Reynolds ... 326

Book Reviews: (*cont.*) PAGE

Bending Moment Coefficients in Continuous Beams: H. Graudenz 422
Building Construction: W. B. and J. K. McKay 36
Building Construction, 3rd Ed.: W. C. Huntington 384

SUTHERLAND, H. B.: Use of in-situ tests to estimate allowable bearing pressure of cohesionless soils —Discussion 55
SZABÓ, S. Sarkadi: Circular ring-shaped plate loaded by tangential forces and by isolated point force 25
SZÁVA, I.: Survey of industrial buildings in Hungary —Discussion 191

Tall buildings:
Stag Place Development —Discussion 169
Wind tunnel model tests of high building of unusual shape 265
TAYLOR, P.: See GIFFORD, E. W. H. and P. Taylor
Technical courses in Structural Engineering 78, 287

Testing:
Allowable bearing pressure of cohesionless soils: in-situ tests —Discussion 55
Beam to column connexion for precast concrete —Correspondence 194
High building of unusual shape 265
Testing of structures: Institution Report 315
Use of prestressed steel in elevated roadways 5
—Discussion 275

Torsion:
Plastic collapse of structural members under combined bending and torsion 423
Ultimate strength of plane curved girders ... 129
Towns, development: Buchanan Report and Structural Engineer 62

Trusses:
Light alloy: Collapse of rigidly-jointed —Correspondence 189
Framing system for high sheds (bowstring) 229

Tubular structures:
Footbridges on the Kwinana Freeway, W Australia 197
Framing system for high sheds 229
Two-phase materials with particular reference to glass reinforced plastics 147
Ultimate load design:
Behaviour of composite beams 115
Experiments on composite beams 369

Ultimate strength:
Plane curved girders 129
—Correspondence 234
Reinforced concrete slab, interior panel: effect membrane stresses
—Correspondence 29
